

Requirements & Expectations

Learn requires students to:

- Attend class, with no more than 5 absences
- Actively participate in all classroom lectures, projects, challenges, etc.
- Submit complete assessments weekly & on time
- Give a tech talk
- Actively contribute to group projects

**** Students who do not comply with these requirements must be reviewed by the staff in order to be considered for internship**

Zoom Camera Policy

We ask that your camera be on during check in and checkout.

We understand that there are times when having your camera off makes sense, either bandwidth or outfit or whatever constraints, but our goal is to see each other most of the time.

If you find you always have your camera off or even mostly have it off, then let's fix that. If it's a technical constraint we want to know but if it's something personal, let's talk about it privately.

Attendance

We expect that you attend and participate in class every day.

Before taking a day away from class, please consider :

- **if the absence is essential**
- **the impact on your learning for the days after your absence**
- **the impact on others' learning on the days you are absent**

Onus is on the student to catch up with material missed in class

Attendance

If you are absent:

- For planned absences, communicate the dates you plan to miss to an instructor at least one week in advance
- For planned and unplanned absences, always post in the class slack channel that you will not be in class

Make up work

When absent:

- Review the presentation materials for the time you are away
- Attempt the challenges for that day and send a link your work on Github to an instructor via slack
- Record any questions you have about the material

Danger Signs

A staff member will meet with you

- If you are absent for 3 or more days
- If you are consistently late for the start of class
- If you consistently leave early from class
- If you consistently miss Stand Up
- If you consistently submit assessments late

If we notice any habits or issues that are endangering your ability to meet the requirements, we will let you know early. This gives us the best chance to course-correct.

Why do have this policy..?

- We want you to get the most out of this class, if something isn't working for you, we want to address it as early as possible
- We want to you represent yourself and LEARN well in your internship
- We want you to have confidence in what you learned during class
- We want to be your advocates throughout the learning process
